Brow lift consultation questions
CosmeticPreview | Free question sheet | 2026-10-28

Prepare questions; this is not medical advice or a treatment recommendation.
AI simulation, not a prediction of your result. Results vary.
Only a licensed provider can assess you.

1. What would you need to know before discussing my brow-related goals?
2. Where can I independently verify your current license and credentials?
3. What risks and alternatives, including doing nothing, should we discuss?
4. What can an illustration show, and what does it leave out?
5. What follow-up is planned, and who should I contact with concerns?
6. Can I receive the costs, cancellation and payment policies in writing?
7. How will my photos and information be used, stored and deleted?

My questions and notes:

_____

_____

_____
